

lyn st. james  
drives for  
safety as  
hard as  
she drove  
for Ford.

With a passion measured in horsepower and a relentless work ethic, Lyn St. James has driven herself to success in a very demanding sport. And, as a mother and a concerned citizen, she's also driven when it comes to automotive safety. She's a tireless campaigner for it. Her partnership with *Drive Safer America!* encourages the proper use of anti-lock brakes. Her *Lyn St. James Foundation* is also active worldwide in promoting auto safety. This is a commitment we at Ford share with all our drivers. We were pushing for safety even when it wasn't the popular topic it is now. To us, there is no more important issue in the automobile business.
